Skyline Telecom Inc.
2015
PROGRESS REPORT ON SERVICE QUALITY IMPROVEMENT PLAN

PREAMBLE

This document is an integral part of the Company's 2015 Annual Report, as attached to Form 481. It is in compliance with §54.313(a)(1) adopted in the FCC's USF/ICC Transformation Order (11-161) and incorporates all further clarifications identified in subsequent Reconsideration Orders, as applicable, that were in effect at the time the Annual Report was due by Rule to the requisite regulatory authorities.

Skyline Telecom Inc. (Skyline) advises that the environment in which the Company operates is dynamic, not static. As a result, certain network targets identified in its initial 5 Year Network Improvement Plan, filed in 2014, may be modified in response to regulatory decisions that have been subsequently adopted, and as their implication upon the Company's financial viability in providing the required services and service level quality became known.

Modifications to the network plan may also have been taken due to changes in technology, vendor-driven support, weather, or emergency related contingencies.

Targets not met or changed since the initial 5 Year Plan filing are identified and reasons provided for those changes.

UNIVERSAL SERVICE SUPPORT RECEIVED IN 2015

Per the Universal Service Administrative Company (USAC), as available for the period up to this filing, Skyline has received a total of \$202,743 to date for 2015 (as of 06/04/15). The breakdown of the funding for the year is:

- \$85,083 High Cost Loop Support
- \$63,800 Connect America Fund-Intercarrier Compensation Support
- \$40,896 Interstate Common Line Support
- \$12,964 Safety Net Additive

Universal Service Support funds are used to: 1) maintain, upgrade, and improve the Company's network and, 2) cover operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband within the authorized serving area.

USF support will continue to be included in the Company's current revenue accounts and forward-looking projections. Revenues, in the aggregate, are used for both capital expenditures as well as to cover operating expenses and fixed costs incurred to obtain capital from lenders. The Company does not segregate USF separately for purposes of capital and

operating expenditures; USF is expended in the same proportion as the Company's aggregated revenue amount.

USF expenditures in 2015 to date have been solely used for OPEX. CAPEX expenditures of \$61,865 will occur in the third quarter of the year.

In the accompanying 2015 project detail, expenditures for network improvements sometimes involve service quality, coverage and capacity as an integrated improvement project and are not mutually exclusive from one another. In terms of cost, projects involving multiple qualifiers are of equal dollar equivalence. Where a project involves a single qualifier, it is so noted.

PROGRESS REPORT

2015

Vehicles: Skyline plans to replace one service truck. Because the Company's service area is so large, by necessity significant miles (an average of 30,000 annually) are put on service trucks in order to serve subscribers. To ensure the safety of employees as well as ensuring serviceable vehicles, the Company replaces most fleet vehicles every six years. The vehicle to be replaced in 2015 is expected to cost \$30,000. This expenditure has been delayed due to service quality issues in the MT Hull exchange.

Transmission: The Company expects to replace older, existing nodes with newer technology during 2015. The nodes to be replaced are in the Silverton exchange due to the extreme moist conditions. Once these cabinets are upgraded maximum broadband speeds of 3 MB upload and 10 MB download can be achieved if additional backbone can be secured. The estimated cost of these deployments is \$10,500. This expenditure has been delayed due to service quality issues in the MT Hull exchange. Nodes will now be replaced in the MT Hull exchange rather than the Silverton exchange due to quality issues with both voice and data services.

General Expenditures: Skyline expects to spend \$4,500 in miscellaneous additions. This expenditure has been delayed due to service quality issues in the MT Hull exchange.

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Skyline Telecom, Inc., which comprise the balance sheets as of December 31, 2014 and 2013, and the related statements of income and retained earnings, stockholders' equity and changes in cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated February 21, 2015. In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2015, on our consideration of Skyline Telecom, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. No reports other than the reports referred to above related to our audit have been furnished to management.

In connection with our audit, nothing came to our attention that caused us to believe that Skyline Telecom, Inc. failed to comply with the terms, covenants, provisions, or conditions of their loan, grant, and security instruments as set forth in 7 CFR Part 1773, *Policy on Audits of Rural Utilities Service Borrowers*, §1773.33 and clarified in the RUS policy memorandum dated February 7, 2014, insofar as they relate to accounting matters as enumerated below. However, our audit was not directed primarily toward obtaining knowledge of noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding Skyline Telecom, Inc.'s noncompliance with the above-referenced terms, covenants, provisions, or conditions of the contractual agreements and regulatory requirements, insofar as they relate to accounting matters. In connection with our audit, we noted no matters regarding Skyline Telecom, Inc.'s accounting and records to indicate that Skyline Telecom, Inc. did not:

Maintain adequate and effective accounting procedures;

Utilize adequate and fair methods for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts;

Reconcile continuing property records to the controlling general ledger plant accounts;

Clear construction accounts and accrue depreciation on completed construction;

Record and properly price the retirement of plant;

Record depreciation in accordance with RUS requirements (See RUS Bulletin 183-1, Depreciation Rates and Procedures);

Comply with the requirements for the detailed schedule of deferred debits and deferred credits; and

Comply with the requirements for the detailed schedule of investments, if the Company has such investments. The Company had no such investments during 2014 and 2013.

The purpose of this report is solely to communicate, in connection with the audit of the financial statements, on compliance with aspects of contractual agreements and regulatory requirement for telephone borrowers based on the requirements of 7 CFR Part 1773, as clarified in the RUS policy memorandum dated February 7, 2014.
